

Master in Full Stack Web Development with Python

1. SQL
2. Web Designing
3. Python Programming
4. Django

Master in Full Stack Web Development with Java

- SQL
- Web Designing
- Java Programming
- Spring Boot

Data Science and data Analytics

Artificial Intelligence

Artificial intelligence is the simulation of human intelligence processes by machines, especially computer systems.

Tableau

Tableau can help anyone see and understand their data. Connect to almost any database, drag and drop to create visualizations, and share with a click.

Power BI

Visualize any data and integrate the visuals into the apps you use every day with Power BI, a unified platform for self-service and business intelligence.
