

Topic	Description
Program	A set of instruction taht you give to a computer so that it will do a particular task.
Algorithm	A set-by-step procedure used to solve a problem is called Algorithm
Flowchart	<i>A flowchart is a type of diagram that visually explains a process or workflow</i>
Compiler	<u>A Compiler translates code written in a high-level programming language into a lower-level language</u>
Interpreter	An interpreter translate the code line-by-line when the program is running.
Chemical formula of water	H ₂ O
Area of Circle	πr^2
