

Write the SQL statement to create a trigger that logs deletions of an employee from the Employee table into the AuditLog table.

```
CREATE TRIGGER after_delete
AFTER DELETE ON employee
FOR EACH ROW
BEGIN

INSERT INTO AuditLog(employee_id, Action)
VALUES(OLD.emp_id, "EMPLOYEE DELETED ");

END //

DELIMITER ;

SELECT * FROM employee;
SELECT * FROM AuditLog;

DELETE FROM employee WHERE emp_id = 2;
```
