

What is ATS and what is its significance? Highlight how you will make your resume ATS friendly.

ATS (Applicant Tracking System): is a software tool used by recruiters and hiring managers to screen, sort, and manage resumes. It scans resumes for specific keywords, phrases, and formatting to identify the most relevant candidates based on the job description.

1. **Efficiency:** Streamlines the recruitment process by filtering through a large volume of resumes.
2. **Relevance:** Ensures only candidates with skills and experience matching the job description are shortlisted.
3. **Consistency:** Provides an objective way to rank applicants based on predefined criteria.

Example of an ATS-Friendly Resume for Bharat Singh

Bharat Singh
